

PULSAR EVO BK119-7,5 AP

Professional silenced two-stage belt high-pressure compressor.

Professional high pressure silenced compressor, with the lowest noise level in its class, designed to solve the problem of noise in work environments. The powerful 7.5 hp pumping unit guarantees the highest level of efficiency and reliability. It is also equipped with an additional intake silencer, a belt tensioning slide that adjusts belt tension and facilitates replacement, and a forced fan for better cooling. The control panel is positioned for easy reading and operation. The opening front door allows easy maintenance.
