

BIG PIONEER MK285M

Lubricated coaxial compressor, versatile and easy to use and transport.

Lubricated coaxial compressor with cast iron cylinder, aluminium casing and head, and a robust plastic cover that conveys air to cool the head. Suitable for both the demanding hobbyist and for semi-professional use. The 2.5 hp pumping unit is fully protected by the steel structure with integrated 24-litre tank. The controls are centralised in the control panel for easy operation. The fixed handle integrated into the structure is suitable for transport either raised or pulled on wheels. The extendable handle allow for easy handling.
